ATTACHMENT G

Form of Network Operating Agreement for

Network Integration Transmission Service

1.0 This Network Operating Agreement ("Operating Agreement"), dated as of April 30, 2024, is entered into, by and between MISO and 1803 Electric Cooperative, Inc ("Network Customer").

2.0 The purpose of this Operating Agreement is to provide the terms and conditions of the exchange of information between the Parties concerning the technical and operational matters in order to plan, design, build, operate and maintain their respective systems and specify the equipment that will be installed, maintained and operated consistent with Good Utility Practice.

3.0 Service under this Operating Agreement for a transaction shall commence on the later of: (1) the requested service commencement date, (2) the date on which construction of any Direct Assignment Facilities and/or Network Upgrades are completed, or (3) such other date as it is permitted to become effective by the Commission. Service under this Operating Agreement shall terminate on such date as mutually agreed upon by the Parties or the termination date of the transaction.

4.0 In order to coordinate and implement, on an ongoing basis, the terms and conditions of this Operating Agreement and the Provisions of Network Integration Transmission Service under the Tariff, including, but not limited to planning, operating, scheduling, redispatching, curtailments, control requirements, technical and operating provisions, integrations of equipment, hardware and software and other operating considerations, the Network Customer and MISO shall each appoint a representative, including an alternate, to a Coordination Committee to administer this Operating Agreement with the MISO representative being the chair. If the Network Customer has either Network Resources or Network Load within an ITC Control Area, the ITC may also appoint a representative, including an alternate, to the Coordination Committee. Said committee shall meet, or otherwise concur, as necessary both before and after the service commencement date. The committee shall establish and keep clear records of the meetings and decisions made by the committee. The expenses of the representatives shall be paid by the respective Parties.

5.0 The Network Customer shall either: (1) operate as a Local Balancing Authority Area under applicable guidelines of the North American Electric Reliability Council ("NERC") and the applicable regional reliability council, (2) satisfy its Local Balancing Authority Area requirements, including all necessary Ancillary Services, by contracting with MISO or ITC, as applicable, or (3) satisfy its Local Balancing Authority Area requirements, including all

necessary Ancillary Services, by contracting with another entity, consistent with Good Utility Practice, which satisfies NERC and the applicable regional reliability council requirements. MISO shall not unreasonably refuse to accept contractual arrangements with another entity for Ancillary Services.

6.0 The following Exhibits addressing certain needs concerning equipment, data, software, and long-term planning requirements are attached and incorporated hereto:

Exhibit	Title
A	Equipment to Integrate the Network Customer into the Transmission System
B	Data Transfer
C	Software
D	Long-Term Planning
E	Local Balancing Authority Area Requirements

7.0 The Tariff, Application, Service Agreement, Transaction Specifications and Exhibit WDS are incorporated herein and made a part hereof.

8.0 If the Network Customer has either Network Resources or Network Load within an ITC Balancing Authority Area, Network Customer shall, if required by ITC, enter into a Control Area Services Agreement with ITC pursuant to ITC's Control Area Services and Operations Tariff or other applicable tariff on file with the Commission.

IN WITNESS WHEREOF, the Parties have caused this Operating Agreement to be executed by their respective authorized officials.
