MINUTES OF THE REGULAR MEETING OF
THE BOARD OF DIRECTORS OF
BEAUREGARD ELECTRIC COOPERATIVE, INC.
HELD ON AUGUST 4, 2026

The regular meeting of the Board of Directors of Beauregard Electric Cooperative, Inc. (sometimes referred to herein as the "Cooperative"), was held in the office of the Cooperative located at 1010 East First Street, DeRidder, Louisiana on Tuesday, August 4, 2026, at 9:00 a.m.

The meeting was called to order by Mr. Tommy Cryar, President, who acted as chairman of the meeting. Mr. J.R. Hickman acted as secretary of the meeting. Ms. Tina Harmon prepared the minutes for the Board's review and approval.

Upon the calling of the roll, the secretary reported that the following directors were present:

Mr. Donald Bush
Mr. Tommy Cryar
Mr. Ricky Deggs
Mr. J. R. Hickman
Mr. Dan O'Dell
Mr. Alan Slaydon
Mr. Douglas Sonnier
Mr. Jeff West (via teleconference)
Mr. Scott Kyle

Mr. Mike Viator, General Manager, was in attendance, as were Ms. Sarah Lott, Mr. Bobby Brown, Mr. Joe Carriere, Ms. Kelly Lewis, Mr. Mike Luttrell, Ms. Shelbie Strickland, Mr. Eric Tucker, Ms. Mayson Victor, and Ms. Tina Tucker. Ms. Shayna Sonnier, attorney with Veron Bice, LLC, was also present.

Following an invocation and recitation of the Pledge of Allegiance, Mr. Bush moved, seconded by Mr. Deggs, to approve the minutes of the July 7, 2026 regular meeting minutes as written. The motion carried unanimously, and it was:

RESOLVED, that the minutes for the July 7th board meeting were approved as written.

Mr. Viator presented the General Manager's Report. Management presented a proposal to purchase an off-road bucket truck that stemmed from discussions about traffic concerns on Gaytine Road associated with the Williams project. Staff met to evaluate the Cooperative's needs and determine the best course of action.

Consideration was given to both renting and purchasing the equipment. Following review and analysis, staff determined that purchasing the truck would provide the greatest long-term benefit to the Cooperative. The recommendation was supported by the unprecedented level of commercial growth being experienced throughout the service territory and the increasing demand associated with larger industrial member construction projects.

Multiple funding options were evaluated, and staff determined the purchase could be accommodated within the existing capital budget. The 2026 capital budget includes $500,000 allocated for fleet purchases, and the Engineering Department anticipates remaining well within its overall budget for the year. The truck would support current and future construction activities while providing operational benefits across multiple areas of the Cooperative.

The board was in favor of moving forward with the bid process for an off-road bucket truck. Staff will send out for bids, and the board will consider the results at the September meeting.

The Board noted its review of the General Manager's Report. Mr. Deggs moved, seconded by Mr. O'Dell, to accept the General Manager's Report as presented. The motion carried unanimously, and it was:

RESOLVED, that the General Manager's Report be, and the same is hereby, accepted as presented.

Ms. Lewis presented the Finance Report and stated that operating margin was a favorable $2.2MM for June and unfavorable ($1MM) year-to-date.

Next, she updated the board on sales and revenue comparison, cost of power, and MDSC ratio, which was projected at 1.53. The cooperative's equity was projected at 24.13%. The Cooperative's outstanding balance on the CoBank line of credit is $17.216.4MM. Available borrowing capacity includes $20MM remaining at CoBank and $2.8MM from additional available credit sources.

Ms. Lewis noted there has been no change in the status of FEMA reimbursements, with $5.3 million still pending. Management anticipates receipt of approximately $840,000 in August.

Ms. Lewis informed the Board that the Cooperative appeared on the Louisiana Unclaimed Property list maintained through the Office of Treasurer John C. Fleming. The listing appears to be related to credit card balances associated with previous purchases. She presented a resolution addressing the unclaimed property matter and requested Board approval.

Mr. Kyle moved, seconded by Mr. O'Dell, to approve the unclaimed property resolution as written. The motion carried unanimously, and it was:

RESOLVED, the unclaimed property resolution would be accepted as written.

The Board noted its review of the Finance Report. Mr. Kyle moved, seconded by Mr. O'Dell, to accept the Finance Report as presented. The motion carried unanimously, and it was:

RESOLVED, that the Finance Report be, and the same is hereby, accepted as presented.

Mr. Brown presented the Operations Report, noting that line crews continue conducting line patrols and making necessary system repairs. Several areas of the system remain without neutral conductors, and copper theft continues to be a significant concern.

Dead trees removed from Right of Way: 102, year-to-date 588. Trimmed trees: 6; year-to-date 67. Spans Cut and Trimmed: 22; year-to-date: 25.

Updates were provided on mileage statistics, new services, June outage data, and system reliability. SAIFI and SAIDI metrics remain well within targets due to the reliability program, with no lost-time incidents reported.

The Board noted its review of the Operations Report. Mr. Deggs moved, seconded by Mr. O'Dell, to accept the operations report as presented. The motion carried unanimously, and it was:

RESOLVED, that the Operations Report be, and the same is hereby, accepted as presented.

Ms. Strickland presented the Member Services Report, providing an overview of call volume, service order activity, June performance ratings, and competitive rate comparisons. Ms. Strickland stated the cooperative had received $40,754.47 from the LIHEAP Program which was applied to 107 member accounts.

The Board noted its review of the Member Services Report. Mr. O'Dell moved, seconded by Mr. Bush, to accept the Member Services report as presented. The motion carried unanimously, and it was:

RESOLVED, that the Member Services report be, and the same is hereby, accepted as presented.

Ms. Strickland presented the past-due accounts to the Board and recommended that the total of $17,015.06 from 91 accounts be moved to uncollectibles. Mr. Hickman moved, seconded by Mr. O'Dell, to transfer the 91 accounts recommended to uncollectibles. The motion carried unanimously, and it was:

RESOLVED, that the 91 accounts, with a total amount of $17,015.06, would be moved to uncollectibles.

Mr. Carriere presented the Engineering Report. He reported that crews successfully completed the Topsy Road three-phase upgrade project. An update was also provided on the copper replacement project. The Osmose pole replacement list has been reduced from 296 poles to 276 poles, and a surprise Osmose inspection identified no concerns. The new SCADA project was completed 2 to 3 months ahead of schedule, and TripSaver devices were installed on High Hope Road. A total of 331 jobs have been staked year-to-date.

Next, Mr. Carriere reported on meeting with Royal regarding grant opportunities. The Right-of-Way Grant has been approved, while another grant application remains under consideration.

An update was also provided on the Williams Project. The Cooperative is working with BETA Engineering on the Big Branch Substation and Empact on distribution and transmission line design.

Work order inspections previously required under a former loan agreement have not been needed since 2018. Eliminating the requirement is expected to save approximately $11,000 annually.

A three-phase meter audit will be conducted within the next three months.

The Board noted its review of the Engineering Report. Mr. Bush moved, seconded by Mr. O'Dell, to accept the Engineering Report as presented. The motion carried unanimously, and it was:

RESOLVED, that the Engineering Report be, and the same is hereby, accepted as presented.

Mr. Tucker presented the Strategic Goal 4 and Initiatives Update. The NISC conversion project is nearing completion and remains on schedule. Major milestones completed include the questionnaire process, implementation team meetings, payment milestone revisions, data cleanup, workflow reviews, hardware preparations, and onsite visits. Key go-live dates were reviewed with the Board. A demonstration of the SmartHub App was presented, outlining multiple features it will offer members.

Mr. Tucker also provided an update on the policies, procedures, and documentation initiative, including established milestone dates for completion.

As part of the Printer Initiative, the Cooperative continues efforts to reduce the number of printers in operation. A total of 10 printers have been donated to local nonprofit organizations.

The Board noted its review of the Strategic Goal 4 and Initiatives Update. Mr. Deggs moved, seconded by Mr. Kyle, to accept the Strategic Goal 4 and Initiatives Update as presented. The motion carried unanimously, and it was:

RESOLVED, that the Strategic Goal 4 and Initiatives Update be, and the same is hereby, accepted as presented.

The Board noted there were currently no Board Policies up for review.

Mr. Viator presented the ALEC report and reported meeting with Aaron Graham. Based on discussions, management believes the Cooperative's current financial

contribution level is reasonable. The Cooperative is currently paying one-half dues, and no changes were recommended at this time. The next meeting is scheduled to occur in approximately two weeks.

Mr. Viator also provided an update on the upcoming Budget Retreat, where financial projections, strategic initiatives, capital expenditures, and operating priorities will be reviewed.

Mr. Viator noted that Cooperative employee Trey West was honored at the 2026 ALEC Annual Meeting as the recipient of the Kevin Reese Award, recognizing his outstanding service and commitment to the local community.

Mr. Viator and Mr. West provided an update on the LEC meeting held the previous week. All electric cooperatives in Louisiana, with the exception of Northeast Louisiana Power Cooperative, have become members. Annual dues were discussed, with LEC dues compared to ALEC.

Current officers include Matt Peters (SLEMCO), President; Mike Marcotte, Vice President; Catherine Dominque, Secretary/Treasurer.

The group will hold monthly Teams meetings and quarterly in-person meetings. BECi will host the October meeting, with hosting responsibilities rotating among participating cooperatives.

Management reported that one of the primary topics of discussion was mutual aid. LEC is working toward entering mutual aid agreements with cooperatives in other states. Participating cooperatives will receive priority consideration when mutual aid assistance is requested following major storm events or emergencies.

The Board noted its review of the ALEC Report. Mr. Deggs moved, seconded by Mr. Kyle, to accept the ALEC Report as presented. The motion carried unanimously, and it was:

RESOLVED, that the ALEC Report be, and the same is hereby, accepted as presented.

Mr. Viator and Mr. Deggs presented the 1803 update and discussed lessons learned from recent ice storm restoration efforts and are researching ways to reduce price

fluctuations associated with storm response and recovery costs in the future. Various options are being evaluated to determine the most beneficial approach for participating cooperatives. They noted current officers in place were Mr. Dane Hocott, serving as Board President, and Mr. Matt Peters, serving as Vice President.

The Board noted its review of the 1803 Report. Mr. Bush moved, seconded by Mr. Kyle, to accept the 1803 Report as presented. The motion carried unanimously, and it was:

RESOLVED, that the 1803 Report be, and the same is hereby, accepted as presented.

Mr. Kyle moved, seconded by Mr. O'Dell, to enter executive session to discuss sensitive cooperative matters. Without opposition, the Board moved into Executive Session.

Upon completion of that discussion, Mr. Kyle moved, seconded by Mr. O'Dell, to return to regular session. The motion carried unanimously.

Upon returning to regular session, Mr. Kyle moved, seconded by Mr. Deggs, for consideration of a performance bonus to Mr. Viator. The motion carried unanimously, and it was:

RESOLVED, that Mr. Viator would be awarded a performance bonus.

There being no further business, the meeting was adjourned by unanimous vote on the motion made by Mr. Slaydon and seconded by Mr. Deggs.
