Michael E. Danahay, Mayor.

April 14th, 2026

Honorable Members of the Sulphur City Council

Sulphur, Louisiana

Re: Budget Message

In accordance with the requirements of the Sulphur Home Rule Charter, as amended, and the Local Government Budget Act, I submit herein for your consideration, the budget for the General Fund, Public Utility Fund, Drug Seizure Fund, Debt Service and Capital Projects for the fiscal year beginning July 1, 2026.

Due to several one-time industrial economic improvement purchases in the City, the total sales tax revenues are projected to yield $1.09 million less than the 2025-2026 amended budget and are used to finance City operations. Also, as provided in the Sales Tax Ordinances, sales tax revenues fund Capital Improvement projects.

The General Fund Budget provides for the (two percent) 2% longevity increase for Civil Service employees, per Civil Service guidelines. Both the General Fund and Public Utility Fund Budgets provide for a two percent (2%) employee anniversary increase for non-Civil Service employees.

For the year 2026-2027, the employer's contribution rates to the various retirement systems that cover the City's employees are as follows: Municipal Employee's Retirement System 26%, Firefighter's Retirement System 32%, and the Municipal Police Employee's Retirement System 29.35%.

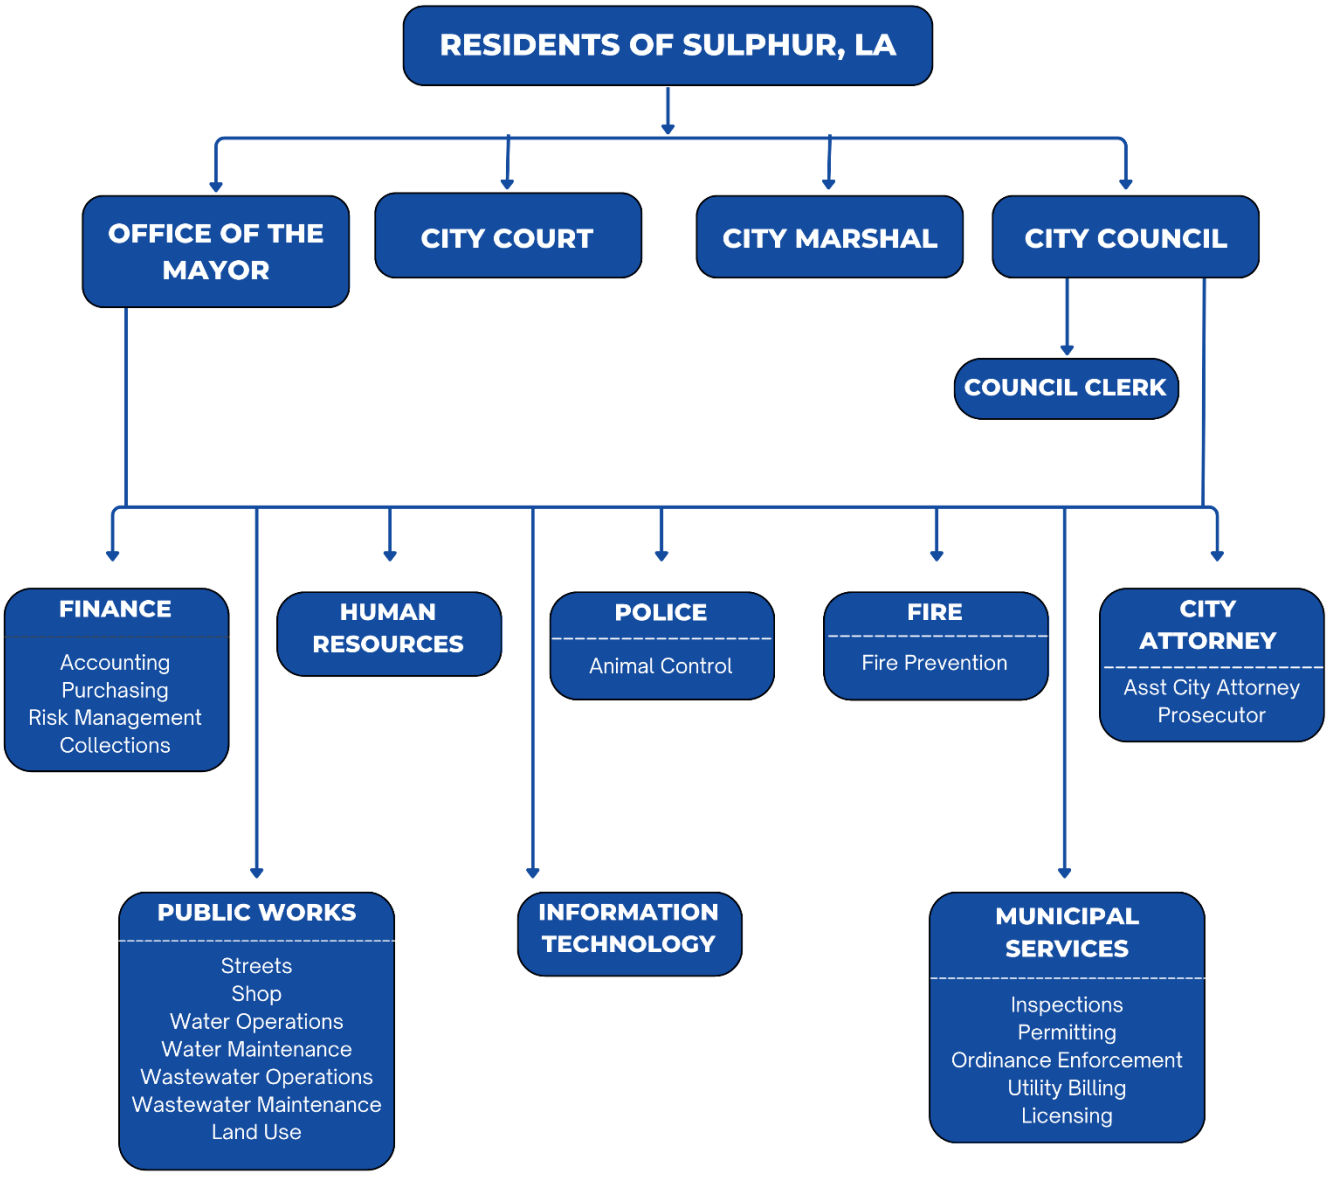

The budget, as presented, was prepared with the participation and cooperation of Department Heads and staff members.

Respectfully Submitted,

MICHAEL E. DANAHAY

ORGANIZATION OF CITY GOVERNMENT

CITY OF SULPHUR, LA

CITY GOVERNMENT

STRUCTURE AND BUDGETARY ORGANIZATION

ORGANIZATION

The City of Sulphur was incorporated in 1914. In 1984, the current City Charter was adopted, which provides for Home Rule and established a Mayor-Council form of government. The City provides a full range of municipal services, including police and fire protection, street systems, garbage and trash collection, and water and sewerage systems.

An organizational chart showing all City entities is provided on the preceding page.

BUDGETARY STRUCTURE

The financial transactions of the City are budgeted and recorded in individual funds. The most important of these are:

1) General Fund

   This is the principal fund of the City and accounts for all financial resources of the City not required to be accounted for in other funds. The General Fund is used to account for the normal recurring activities of the City, including police, fire, streets, sanitation and general administration.

2) Special Revenue Funds

   These funds are used to account for the restricted revenues and related expenditures. Special revenue funds contained in this budget are Drug Seizure Funds. The City maintains a separate fund for each Federal and State programs. The funds have been consolidated because they are similar in nature.

3) Enterprise Funds

   Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, in that the costs of providing goods or services to the general public to be financed through user charges. The Enterprise fund contained in this budget is the Public Utility Fund which accounts for the City's water and wastewater services. The activities provide such services including, but not limited to, administration, operations, maintenance, capital improvements, and financing and related debt service.

4) Capital Projects Funds

   These funds are used to account for resources used in the City's Capital Improvement Program. Capital Project Funds contained in this budget are the Public Improvement Fund and the Street Improvement Fund.

STATEMENT OF BUDGETARY POLICIES

The City Charter requires the City Council to adopt budgets for the General Fund, separate special funds, water and sewerage services, and capital projects. The City's fiscal year is July 1 – June 30, and budgets for a particular year are required to be adopted by June 15 of the preceding fiscal year.

Responsibility for administering each budget is the Mayor's. Council approval is required before a budget ordinance may be amended.

The General Fund Budget is adopted using the modified accrual basis of accounting. Enterprise funds are accounted for on an accrual basis.

It is the policy of the City of Sulphur that the total of proposed expenditures shall not exceed the total of estimated revenues available for a particular year.

It is the City's policy that the water and sewerage funds operate within their self-generated revenues.

The City maintains a balance in its debt services budgets equivalent to the year's obligations.

The City belongs to the Louisiana Municipal Police Retirement System, the Louisiana Municipal Employee's Retirement System, and the Louisiana Municipal Firefighter's Retirement System.

Capital improvements for the City of Sulphur must be budgeted based on systematic planning and an appropriate mix of local, state and federal funds.
Long-range planning is encouraged by the City Charter requirements that a five-year Capital Improvements Program be prepared annually.

BUDGETARY PROCESS

Process

In February of 2026, each department was required to prepare budget requests to describe operational needs for fiscal year 2026-2027. Each department was requested to prepare its budget submittal to meet present operational needs and to further justify any increase in spending.

Budget Review Process

The Director of Finance and City Controller met with all departments to review budget requests. Proposed personnel rosters for conformance with existing manning levels were compared. Expenditure requests were compared against current and historical levels to assure reasonableness. The Director of Finance presented the collected information to the Mayor for a thorough and final review.

Charter Requirements (as amended)

At least sixty (60) days prior to the beginning of each fiscal year, the Mayor shall submit to the Council a proposed operating budget in the form required by the Charter. At a meeting of the Council at which the operating budget is presented, the Council shall order a public hearing on it and shall cause it to be published in summary form at least ten (10) days prior to the date of such hearing. At the time and place advertised, the Council shall hold a public hearing on the budget as submitted. The budget shall be finally adopted no later than fifteen (15) days prior to the end of the current fiscal year.

GLOSSARY OF TERMS USED IN THIS BUDGET

APPROPRIATION - The amount which the City Council authorizes in a budget ordinance, to be expended for a particular project or category of expenditure.

CAPITAL IMPROVEMENT BUDGET - The budget which contains funds for all of the City's capital improvement projects authorized for a particular year.

DEPARTMENT - The largest organizational unit within a fund, usually led by an appointed director. For example, Police and Fire are departments within the General Fund.

FUND - The largest budgetary unit within city government. Each budgetary fund requires its own budget ordinance and is accounted for separately. The largest of these is the General Fund, where most of the City's tax-supported operations (Police, Fire, etc.) are budgeted, but there are also funds for the water and sewerage systems and several other activities.

FUND BALANCE - The dollar amount of resources remaining from prior years which are available to be budgeted in the current year.

ORGANIZATIONAL OBJECTIVES - Goals set by management which apply to virtually every level of the organization.

PERSONNEL ROSTER - A list which contains the titles and numbers of positions authorized to be filled by a particular organizational unit.

SPECIAL REVENUE FUND - A budgetary fund where revenues are dedicated for specific purposes and are designated to be expended for specific uses.

GENERAL FUND

REVENUES

The budgeted revenues reflect an increase in revenue of $1,988,007 from the original budget & a decrease in revenue of $951,384 from the amended budget in the prior fiscal year. This is due mainly to increased economic and industrial development in the local area.

General Fund Revenue Sources

Sales Tax

Proposed sales tax revenue of $18.65 million accounts for 62 percent of all General Fund revenues. This proposed revenue is a decrease of 10 percent from the projected 2026 amount of $20.79 million and an increase of 12 percent above the actual sales tax collected in the General Fund in fiscal year 2025 of $16.67 million. Projections are conservative and based on past history and current year trends.

Ad Valorem Tax

Proposed ad valorem tax revenue of $3.57 million will account for 12 percent of all General Fund revenues in fiscal year 2027. Property tax collections in fiscal year 2027 are not projected to increase above projected 2026 collections. Actual ad valorem tax collected in the General Fund in fiscal year 2025 was $3.47 million. Projections are based on the property valuations as determined by the Calcasieu Parish Tax Assessor's Office

Charges for Services

Charges for Services of $2.47 million make up 8 percent of General Fund revenue. Included in this category is refuse collection, estimated at $2.37 million in fiscal year 2027. The proposed charges for services revenue is an increase of 5 percent from the projected 2026 amount of $2.35 million. Actual charges for services collected in the General Fund in fiscal year 2025 was $2.30 million. Projections are based on the City's current contract with Waste Management.

Discussion of General Fund Expenditures

The proposed General Fund departmental expenditures are budgeted to be $32,322,169 which is an increase of 4 percent as compared to the FY 2026 adopted budget of $31,213,505 and 9 percent over FY 2024 audited expenditures of $29,771,026.

General Fund Expenditures by Department

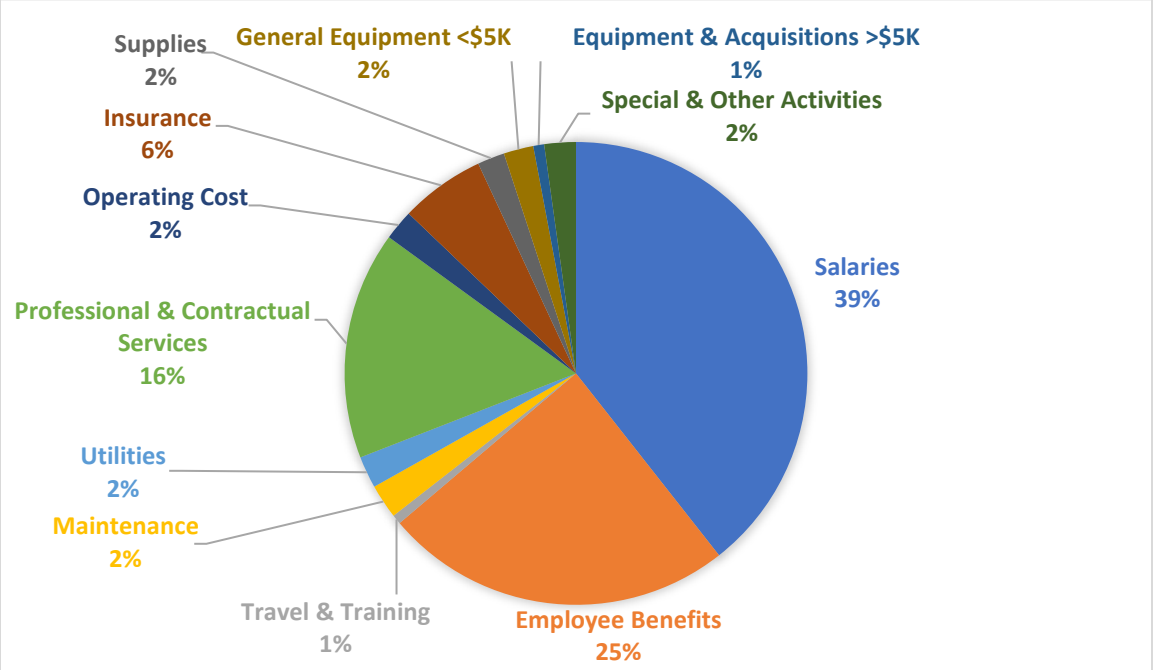

The Fire Department's expenditures of $8.91 million account for 27 percent of the City's General Fund departmental expenditures; 12 percent above the FY 2026 adopted budget and 1 percent above the FY 2025 audited expenditures.

The Police Department expenditures of $7.74 million account for 24 percent of the General Fund departmental expenditures. This is an increase of 3 percent above FY 2026 adopted budget and a decrease of 3 percent below FY 2024 audited expenses.

Administrative expenditures of $7.46 million account for 23 percent of the General Fund departmental expenditures. This is an increase of 1 percent above the FY 2026 adopted budget of $7.38 million. Included in the Administration Department's FY 2027 proposed budget are IT Software Agreements budgeted for $1.03 million and Tyler Technologies Software implementation budgeted for $300,000.

General Fund Operating Expenditures by Category

Personnel Summary

The cost of salaries and fringe benefits account for 64 percent of the General Fund's operational expenses. Included in the FY 2027 proposed budget of $12.73 million for salaries, wages, and overtime is the 2 percent longevity pay added every year for eligible employees. Salary adjustments are a part of the operational expense increase to ensure employee retention due to a tight labor market.

The benefit category expense of $7.88 million makes up 25 percent of General Fund operational expenses. Retirement contributions make up 53 percent of the expenditures in this category, and 13 percent of all operating expenditures. Retirement rates are established by the individual systems: Municipal Employee Retirement System (MERS), Firefighter Retirement System (FRS) and the Municipal Police Employee Retirement System (MPERS). The Municipal Police Employee Retirement System's contribution rate has decreased to 29.35 percent in FY 2027 from 35.6 percent in FY 2026. The Municipal Employee Retirement System's contribution rate has decreased to 26 percent in FY 2027 from 27 percent in the previous fiscal year. The Firefighter Retirement System's contribution rate has decreased to 32 percent in FY 2027 from 33.25 percent in the previous fiscal year.

The City remains committed to examining productivity and the need for any additional positions. There are 255 full-time positions and 13 part-time positions in the proposed budget as compared to 239 full-time and 13 part-time in the FY 2026 budget. The changes in the budget positions are attributed to 13 new full-time positions. In the Police Department a communication officer and 4 patrol officers will be added, 3 new firefighters will be added to the Fire Department, Human Resources will be adding an additional administrative assistant, a clerk will be added to the Court, and Streets Department will be adding 2 equipment operators, 3 drivers, and a foreman.

Professional & Contractual Services

Professional and Contractual Services make up 16 percent of the General Fund's Operating Expenditures. The proposed $5.15 million budgeted for professional & contractual services is a 1 percent increase over the $5.08 million adopted in the FY 2026 budget. Actual FY 2025 expenses were $4.44 million. Included in this category is the expense for refuse collection, estimated at $2.37 million in fiscal year 2027.

ADMINISTRATION

Administration activities include the Mayor's Office and the City Council, the Finance Department, Information Systems, Human Resources Department, Judicial, Marshal's Office, City Attorney's Office, General Administration, all accounting personnel is provided for the day-to-day operation of each department.

SULPHUR FIRE DEPARTMENT

The Fire Department is charged with the protection of the community against fire loss and with the additional responsibilities of educating the public of fire prevention. This involves previewing building plans before construction, inspecting buildings prior to occupancy and pre-planning after occupancy. In addition, the Fire Department is charged with flow testing all fire hydrants in the City to determine maximum water available in case of a fire.

Funding is provided for the general operation of the department.

PUBLIC WORKS

Public Works activities include Street Division, the City Shop and the local Office of Motor Vehicles.

The Street section of the Department of Public Work is charged with the maintenance of all public buildings and public roads within the City of Sulphur, control of weeds, grass and brush along road right-of ways, maintenance of open drainage ditches along City streets and general beautification efforts.

The Shop section of the Department of Public Works is charged with the overall maintenance of all City vehicles, including fire trucks and police cars.

The Office of Motor Vehicles reflects expenses associated with the operation of the local office.

Funding is provided for the general operation of the department.

PUBLIC UTILITY FUND

REVENUES

The budgeted revenues reflect an increase in operating revenue of $ 1,008,064 from the prior fiscal year. This is mainly due to an increase in fees and sales tax revenue.

Wastewater Maintenance

Discussion of Public Utility Fund Expenditures

The proposed Public Utility Fund departmental expenditures are budgeted to be $ 12,788,074 which is an increase of 7 percent as compared to the FY 2026 adopted budget of $ 11,960,780 and an 8 percent over FY 2024 audited expenditures of $ 11,848,368.

Public Utility Fund Expenditures by Department

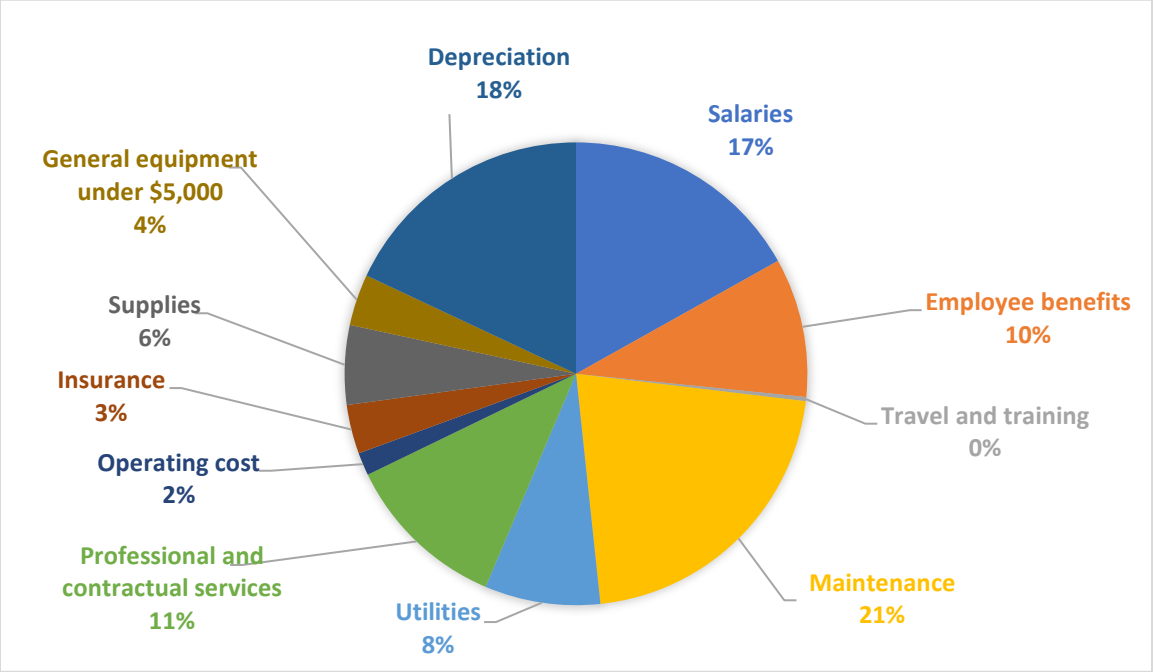

The Wastewater Plant Operation's expenditures of $5.55 million account for 43 percent of the Public Utility Funds departmental expenditures; 1 percent above the FY 2026 adopted budget of $5.47 million and 4 percent above the FY 2025 audited expenditures of $5.35 million. Included in the Wastewater Operation's FY 2027 proposed budget is $1.47 million budgeted for maintenance and repairs of the wastewater plant.

The Water Plant Operation's expenditures of $3.03 million account for 24 percent of the General Fund departmental expenditures. This is an increase of 19 percent above FY 2026 adopted budget and 3 percent above FY 2025 audited expenses. Included in the Water Operation's FY 2027 proposed budget is $562,500 budgeted for maintenance and repairs of the water plant.

Administrative expenditures of $1.21 million account for 9 percent of the Public Utility Fund, increased by 3 percent above the FY 2026 adopted budget of $1.18 million. Included in the Public Utility Administration's proposed FY 2027 budget is $390,000 budgeted for the implementation of the new Tyler Technologies Software.

General Fund Operating Expenditures by Category

Personnel Summary

The cost of salaries and fringe benefits account for 27 percent of the Public Utility Fund's operational expenses. Included in the FY 2027 proposed budget of $2.14 million for salaries, wages, and overtime is the 2 percent longevity pay added every year for eligible employees. Salary adjustments are a part of the operational expense increase to ensure employee retention due to a tight labor market.

The benefit category expense of $1.23 million makes up 10 percent of Public Utility Fund operational expenses. Retirement contributions make up 54 percent of the expenditures in this category, and 5 percent of all operating expenditures. Retirement rates are established by the Municipal Employee Retirement System (MERS). The Municipal Employee Retirement System's contribution rate has decreased to 26 percent in FY 2027 from 27 percent in the previous fiscal year

The City remains committed to examining productivity and the need for any additional positions. There are 51 full-time positions and 3 part-time positions in the proposed budget as compared to 48 full-time and 3 part-time in the FY 2026 budget. The changes in the budget positions are attributed to 3 new full-time positions. Public Utility Billing will be adding an additional municipal service clerk, 1 new laborer will be added to the Water Maintenance Department, and Wastewater Plant Operations will be adding 1 lab technician.

Maintenance

The cost of maintenance accounts for 21 percent of the Public Utility Fund's expenditure. The proposed $2.71 million budgeted for maintenance is a 5 percent increase over the $2.78 million adopted in the FY 2026 budget, and an 8 percent decrease below the $2.94 million of audited expenses in FY 2025.

Professional & Contractual Services

Professional & contractual services make up 11 percent of Public Utility Fund expenditures. The proposed $1.44 million budgeted for professional & contractual services is a 27 percent increase over the $1.14 million adopted in the FY 2026 budget. Actual FY 2025 expenses were $1.13 million.

Public Works Administration

This section of the Department of Public Works includes the Office of the Director of Public Works and his staff.

Funding is provided for the general operation of the department.

ORDINANCES

CAPITAL IMPROVEMENT BUDGET

Michael E. Danahay, Mayor.

April 14th, 2026

Honorable Members of the Sulphur City Council

Sulphur, Louisiana

Re: Capital Improvement Budget Message

The proposed Capital Projects Budget is designed to address funded ongoing projects and new proposed projects separately under the common functions of (1) Wastewater Projects, (2) Water Projects, (3) Street Improvement Projects, and (4) Public Improvement Projects.

Additional funds have been budgeted for the following on-going projects: Collection system improvements ($250,000), all lift station improvements ($250,000), wastewater plant improvements ($250,000), water treatment facility improvements ($5,000,000), asphalt street maintenance ($500,000), concrete rehab ($1,500,000), sidewalk rehabilitation ($150,000), signalization ($150,000), Burton Street rehabilitation ($250,000), bridge rehabilitation and repair ($250,000), Maplewood Drive improvements ($500,000), drainage ($150,000), and traffic markings ($150,000).

Note: Asphalt Street Maintenance includes patching only, patching followed by overlay and reconstruction of asphalt streets.

The Capital Projects Budget is based on available funds. Our goal is to continue providing infrastructure improvements throughout the City.

Respectfully Submitted,

MICHAEL E. DANAHAY

Mayor
